## February is Peace Building and Conflict Prevention Month Projects

### Mental Health Support through Inclusive Sports

As a compassionate initiative to support mental health and emotional rehabilitation, the Rotary Club of Calcutta Universe organized a sports event on **1st January 2026** for patients suffering from acute mental disorders at **SEVAC Mental Hospital**. The program was designed to provide a safe, joyful, and inclusive environment

where patients could actively participate in simple sports and recreational activities. Through participation, encouragement, and interaction with Rotary members, the patients experienced moments of happiness, social bonding, and emotional connection. The event helped rebuild self-confidence, reduce feelings of isolation, and reinforce the belief that mental illness does not diminish human dignity or ability. The initiative reflected Rotary's belief in holistic healing—addressing emotional and psychological well-being alongside medical treatment.

### Desk Calendar Distribution for Clean Water Awareness & Rotary Public Image

As part of its Public Image Creation initiative, the Rotary Club of Calcutta Universe undertook an awareness activity by distributing Desk Calendars among individuals and community members on 3rd January 2026. These calendars carried important messages highlighting the harmful effects of

consuming contaminated water and emphasizing the importance of safe and clean drinking water for a healthy life. Distributed under the banner of the

Rotary Club, the calendars served a dual purpose—spreading vital public health awareness while consistently showcasing Rotary's commitment to community well-being throughout the year. By remaining visible on work desks and in homes, the calendars act as a daily reminder of Rotary's service efforts and reinforce a positive public image of Rotary as an organization dedicated to prevention, education, and sustainable community development, particularly in the area of water, sanitation and hygiene.
