Dear Fellow Rotarians,

It is with immense pride and excitement that I greet you as we step into this vibrant new Rotary year! This year, our focus is encapsulated by the powerful district theme: I-N-S-P-I-R-E. This is more than just an acronym; it is a blueprint for action—a collective call to elevate our club's impact, connectivity, and experience.

The Rotary Club of Bombay Metropolitan has always been a beacon of service, and this year, we will use the I-N-S-P-I-R-E framework to make our light shine even brighter:

Involve, Nurture, Seek, Promote, Initiate, Reach, and Engage.

My vision is simple: To ensure that every single one of you feels valued (Involve), that our legacy projects thrive (Nurture), and that we maximize our outreach to donors and corporations (Seek). We will Promote clear leadership, Initiate dynamic connections through fellowship, and Reach out to new communities. Above all, we will Engage and celebrate the joy of service that unites us all. Let us commit to working together, sharing our diverse skills, and embracing the opportunity to truly connect and make a tangible difference in the lives we touch.

I look forward to an unforgettable year of service and fellowship!

Yours in Rotary Service,

[Your Name]

President (20XX-20XX)

## INSATALATION CERMONY OF THE 40th PRESIDENT OF RCBM 2025-2026

### THE FOUR-WAY TEST of the things we think, say or do

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?

अवोकाडो का मिक्स बनाना,  
दिल में खुशी का एहसास बनाना.  
बनाएं घर पर यह रिसिपी,  
हर लम्हा हो खुशी की डिश

**An Awareness Session on Dementia and Alzheimer's**

### Session Spotlight: Integrating Art, Compassion, and Neuroscience

We were truly privileged to host Ms. Khushi Kumar Singh, a distinguished Neuropsychologist from Sir H.N. Reliance Foundation Hospital, for a remarkably insightful session.

Ms. Singh specializes in cognitive assessment and rehabilitation, focusing on the intricate brain-behavior relationship. Her approach integrates the latest neuroscience with creativity and compassion to restore cognitive and emotional functioning. Interactive Assessment & The Power of Art The highlight of the session was its interactive element. Ms. Singh engaged members in fascinating mind games designed for cognitive assessment. This hands-on activity provided a unique glimpse into the techniques used to evaluate brain function. She then detailed her passion for the therapeutic power of art, explaining how she designs engaging, expressive, and stimulating programs that promote recovery, resilience, and well-being through neurorehabilitation. We thank Ms. Khushi Kumar Singh for sharing her invaluable knowledge and demonstrating how a holistic approach can transform lives.
