Message from President Desk

Dear Rotary Family,

As we bid farewell to April, I take this opportunity to thank each of you for your unwavering commitment and the meaningful contributions you made throughout the month.

April, as Rotary's Maternal and Child Health Month, reminded us of the power we hold to make a lasting difference in the lives of vulnerable communities. From raising awareness to supporting on-ground health and wellness initiatives, our collective spirit truly embodied Rotary's motto of Service Above Self.

I am proud of the activities we completed — be it community outreach, educational support, environmental actions, or health-focused projects. Each effort, big or small, brings us closer to a more compassionate and empowered society.

Now, as we enter May — a time of renewal and planning — let's continue with renewed energy. The Rotary year is moving toward its final stretch. Let's strengthen our fellowship, complete our goals, and prepare for a strong finish.

Together, let's keep serving with purpose and passion.

In Rotary Service,

Warm regards,

Dr. Ruchi Srivastava

President, Rotary Club of Baroda Greens

Rtn. Dr.Ruchi Pankaj Shrivastava

Expert Talk on Energy Conservation Held by Electrical Department in Association with Rotary Club of Baroda Greens

On 01 April 2025, The Electrical Department, in collaboration with the Rotary Club of Baroda Greens, successfully hosted an expert talk on Energy Conservation, aimed at educating students on sustainable energy practices and efficient power usage.

The session featured a seasoned industry expert who shared insightful strategies and real-world applications, helping students grasp the significance of energy conservation in everyday life as well as in future technological developments.

Students actively participated in the event, which concluded with an engaging Q&A session. The talk left attendees inspired and well-informed, empowering them to contribute meaningfully toward a greener and more sustainable future.

Plastic Waste Disposal Awareness Program Held on Earth Day by RCBG and Kachre Se Azadi Foundation

On the occasion of Earth Day, April 22, 2025, the Rotary Club of Baroda Greens (RCBG), in collaboration with the Kachre Se Azadi Foundation, successfully conducted a Plastic Waste Disposal Awareness Program at Dumad village near Vadodara.

The event aimed to educate the local community about the detrimental effects of plastic pollution and to encourage the adoption of sustainable waste management practices.

Through informative sessions and community engagement, the program effectively raised awareness and inspired villagers to take proactive steps toward reducing plastic waste and protecting the environment.

"A Walk with Nature" Reel-Making Competition Inspired Students on Earth Day

As part of the Earth Day celebrations on April 22, 2025, a creative reel-making competition titled "A Walk with Nature" was successfully organized to complement academic learning with student involvement and innovation.

The event encouraged students to explore the campus environment, identify sustainable practices, and create short video reels centered around the themes of Green Campus, Sustainability, and Save Earth. Open to all students, the competition aimed to inspire a deeper connection with nature while promoting environmental advocacy through digital media.

Participants enthusiastically captured and showcased various green initiatives across the campus, including tree plantations, water-saving systems, and waste segregation units. The competition highlighted the collective efforts being made toward building a more eco-friendly and sustainable campus.

Expert Talk on Role of Civil Engineers in Environmental Sustainability Held on Earth Day

On 22 April 2025, As part of the Earth Day celebrations, an insightful expert talk was delivered by Dr. Khushbu Bhatt, Assistant Professor in the Civil Engineering Department at Parul University, Vadodara. Her session, titled "Save Earth: Role of Civil Engineers in Environmental Sustainability," served as the highlight of the event.

ROTARY CLUB OF BARODA GREEN

Dr. Bhatt emphasized how civil engineering significantly influences the environment and stressed the importance of designing and building responsibly. She discussed real-life examples of sustainable infrastructure projects and highlighted how institutions and governments worldwide are adopting eco-conscious building codes and green practices.

The session was highly interactive, with students actively participating in a lively Q&A segment. Dr. Bhatt also shared valuable insights on career opportunities in sustainable engineering and green technology. The talk provided students with a deeper understanding of the need for proactive, eco-friendly engineering solutions that safeguard natural ecosystems and enhance community well-being.

General Medical Check-up Camp Conducted at Kerawada Primary School

A General Medical Check-up Camp was successfully organized at Kerawada Primary School on 24th April 2025, with the goal of promoting the health and well-being of school children and local residents.

The camp featured a team of qualified doctors and healthcare professionals who provided free medical consultations and screenings. Services included general health check-ups, eye and dental examinations, and basic diagnostic tests. Attendees also received valuable health awareness information and hygiene tips aimed at fostering long-term wellness.

The initiative benefited over 150 participants, leaving a meaningful impact on community health and encouraging the importance of regular medical care and preventive health practices.

Lecture on Sustainable Building Practices Marks ISHRAE Technology Day 2025

To commemorate World Earth Day 2025, the ISHRAE Vadodara Chapter, in collaboration with Women in ISHRAE and GRGEN, successfully organized ISHRAE Technology Day (ITD) on 24th April 2025 at The Baroda Residency, Alkapuri, Vadodara.

ROTARY CLUB OF BARODA GREEN

The highlight of the evening was an enlightening lecture on Sustainable Building Practices delivered by Architect Mansi Parikh, a renowned sustainability expert and founder of Building for Climate Solutions. Drawing from her vast experience in Net Zero design and climate-responsive architecture, she inspired attendees to embrace eco-conscious principles in the built environment.

The event received support from several associate organizations, including the Rotary Club of Baroda Greens, FSAI, and others. Attended by a diverse audience comprising industry professionals, ISHRAE members, and sustainability advocates, the program concluded with a networking dinner, reinforcing the collective commitment to environmental responsibility and sustainable development.
