## Club Diaries

Rotary International is a global humanitarian organization founded in 1905, aimed at fostering community service, promoting peace, and enhancing goodwill among people.

It was established by Paul Harris in Chicago and today has over 1.2 million members across more than 200 countries.

The first Rotary Club in India was formed in 1920 in Bombay (now Mumbai), marking the beginning of Rotary's international service in the country.

The movement quickly spread, with many clubs established across major cities like Calcutta (Kolkata) and Delhi.

Over the years, Rotary India has made significant contributions to various social causes, including education, health, and sanitation, and has played a prominent role in the polio eradication campaign.

Rotary clubs in India also focus on empowering women, supporting youth leadership, and addressing environmental issues. Notably, the organization has adapted its programs to meet the evolving needs of Indian communities. The collective efforts of Rotary have fostered a spirit of collaboration and civic responsibility among its members, reinforcing its mission to create lasting change. Today, Rotary India continues to thrive with hundreds of clubs and thousands of dedicated Rotarians.

### Numerology is the science of numbers

We all know that numbers play an important part in our lives.

We are born on a certain date, which is a number, the hospital room where we are born is a number, we get married on a certain date which is again a number and so on.

Each number represents a planet which affects us in our daily life and also major life events.

The following are the planets represented by these numbers.

- No 1 : Sun
- No 2 : Moon
- No 3 : Gemini
- No 4 : Rahu
- No 5 : Mercury
- No 6 : Venus
- No 7 : Ketu
- No 8 : Saturn
- No 9 : Mars

Out of the above Rahu and Ketu are the most malefic planets.

A simple remedy to improve your Rahu Ketu is to feed stray dogs.

Also, I would like to teach you how to calculate your Angel number which if you write on your left wrist with a green pen will give you good results in your life.

This number is also called "Kua Number"

So what you have to do is to take your century number, add it and reduce it to a single digit.

For males minus 11, for females plus 4.

Let me give you an example :

If you are born on 1996 add all four of these numbers and reduce this to a single digit

$$1+9+9+6= 25$$

$$2+5 =7$$

Now if it's for a male, minus 11 from this

$$11-7=4.$$

If it's for a female, add 4

$$4+7=11 \text{ ( 11 you reduce to single digit, } 1+1=2)$$

In Numerology, we reduce all numbers to a single digit.

So for a male born on 1996, Angel Number or Kua Number will be 4.

For a female born on 1996, Angel Number or Kua Number will be 2.

So what's your Angel Number ?

Calculate for your self and write daily on your left wrist with a green pen.

You will see that this lucky number of yours, if written regularly will help you in attracting positivity, abundance and good luck in your life.

Happy Manifesting and Wishing You all the luck and happiness that life has to offer to you .
