# Announcement of STEM Project

**5<sup>th</sup> July 2025 - DGND Chandrahas Shetty announced that the club successfully partnered with USF last year and will be continuing the project this year as well. In the previous year, CSR funding was secured with the support of Rtn. Nikhunj Zaveri, while this year, the support comes from our very own Rtn. Prakash Guhaji.**

Amid the vast landscape of educational initiatives in India, Universe Simplified Foundation (USF) is emerging as a leading force in STEM education (Science, Technology, Engineering, and Mathematics). According to the Future of Jobs Report 2023 by the World Economic Forum, essential workplace skills now include analytical thinking, creativity, adaptability, and agility—skills that must be nurtured from an early age.

The New Education Policy (NEP) has brought a much-needed shift towards holistic, experiential, and critical thinking-based education. However, access to inquiry-driven STEM learning remains limited to elite institutions—representing less than 0.1% of schools in India.

USF has been working for the past 8 years to bridge this gap by establishing low-cost, portable Innovation and Technology Hubs in under-resourced government schools.

These hubs aim to provide equitable STEM learning opportunities, on par with those offered in privileged settings. The focus is not only on technical skills but also on cultivating a growth mindset and 21st-century competencies like critical thinking, creativity, collaboration, and local problem-solving.

A major highlight of the year was the outstanding performance of Zilla Parishad school students at both District- and State-level Hackathons, hosted by DIET Thane and SCERT Pune. In addition, STEM fairs were held across all partner schools, culminating in a grand Vigyan Mahotsav—a celebration of student innovation and learning.

# Installation Ceremony of DG Harsh Makol

The installation ceremony was held at IRitz, Navi Mumbai, on 5<sup>th</sup> July 2025, with a vibrant theme centered around Ashadhi Ekadashi. The event began with a traditional Dindi procession, marking the grand entry of District Governor (DG) and First Lady Priya.

The Rotary Club of DownTown (RCDT) was honored with a Special Club Recognition Award, celebrating its outstanding contributions. The ceremonial lamp lighting was led by DGN Chandrahas Shetty, setting the tone for an inspiring evening.

RID, Flt Lt K P Nagesh addressed the gathering and shared key Rotary initiatives and aspirations:

- **Connecting People** - Rotary continues to connect individuals of action across the globe, united by a shared mission to create lasting good in the world.
- **Grow India** - This year, Rotary envisions India moving to the next level. The goal for the next five years is to double the number of Rotarians in the country, while also increasing the involvement of Rotaractors and Interactors to strengthen membership further.
- **Divide and Grow** - By expanding the number of districts and clubs, Rotary aims to foster organic growth and deeper local impact.
- **Mission 5000** - District 3142 has set an ambitious target of adding 5,000 new members this Rotary year.
- **Lead 25** - A regional conference is scheduled to take place in August at Hyderabad, uniting leaders across the zone.
- **Lead Governor** - IPDG Dinesh Mehta has been selected as the Lead Governor for Zone 4. He will mentor and guide Governor-Elects within the zone.
- **Grow CSR** - India is poised to become a USD 100 million giving nation. CSR partnerships are expected to play a pivotal role in scaling up contributions to The Rotary Foundation (TRF).

IPP Shantaram Shet as GGR @ RC of Thane Northend on 1<sup>st</sup> July 2025

A GGR (Governor's Group Representative) is a senior Rotarian appointed by the District Governor to serve as a key link between the District and a cluster of Rotary clubs within a specific area, known as a "group." The GGR plays a vital role in supporting, guiding, and monitoring the clubs under their care, ensuring they align with the district's goals and initiatives. They assist with training, facilitate communication, and help in reporting and organizing club visits, especially when the District Governor is unable to attend personally. Typically, GGRs are experienced Rotarians, often past presidents or past assistant governors, who have demonstrated strong leadership and commitment within Rotary.
