Exploring R. Partners's Creativity

Rotary Partner : Sanjeeda Abbas Motiwala

God has been kind enough to us, our parents gave us considerable good education and an happy environment at home and to give back to society is what we considered by joining Rotary.

I have been in Rotary for some last 20 Years and accompanying my husband Abbas to meetings, events, conferences and many more other activities, had a chance to listen to many learned speaker which other wise would not have been possible.

Also by contributing some amount we have partnered in many good community needed projects which individually was not possible. After induction in July 2004 we attended picnic to lonavla and there was no looking back. we have made so many friends in Club and district and beyond that also.

We had opportunity to host RYE & RFE and that experience has widened our vision. Overall, the experience of being a Rotary Partner can provide opportunities for socializing, community engagement, and personal growth.

The purpose in life is not just to be happy, but also to be kind, helpful and useful . This thought had been in our minds and Rotary was the medium through which we could attain this.

Being a Rotary Partner can indeed be a rich and rewarding experience, offering a range of opportunities for personal growth and community engagement. Here are some additional ways in which Rotary Partners can contribute and benefit:

Exploring R. Partner's Creativity Contd.....

Networking: Rotary provides a unique platform to network with like-minded individuals, professionals, and community leaders, which can lead to new friendships, business opportunities, and collaborations. Also By contributing to projects and initiatives that make a difference in the world, Rotary Partners can experience a deep sense of personal fulfillment and satisfaction.

Personal Growth: Through involvement in various Rotary activities, partners can develop leadership skills, public speaking abilities, and a deeper understanding of local and global issues.

Community Service: Rotary Partners have the opportunity to contribute to meaningful community service projects, making a positive impact on the lives of others and helping to address important social issues.

Cultural Exchange: Hosting RYE and RFE participants allows Rotary Partners to engage in cultural exchange, learning about different cultures and perspectives firsthand.

Travel Opportunities: Rotary often involves travel, whether it's attending international conferences, participating in exchange programs, or visiting project sites, offering partners the chance to explore new places and cultures.

Supporting Rotary's Mission: Rotary Partners play a vital role in supporting Rotary's mission of promoting peace, fighting disease, providing clean water, saving mothers and children, supporting education, and growing local economies.

Overall, being a Rotary Partner is not just about supporting a spouse or family member in Rotary; it's about actively participating in a global network of service-minded individuals dedicated to making the world a better place.
