Trends in Infant Mortality

Deaths per 1,000 live births

■ NFHS-1 ■ NFHS-2 ■ NFHS-3 ■ NFHS-4 ■ NFHS-5

*NFHS = National Family Health Survey for 5 continuous year.
*NFHS 5 is the latest survey statistics

The infant mortality rate in Gujarat in NFHS-5 is estimated at 31 deaths before the age of one year per 1,000 live births, down from the NFHS-4 estimate of 34.

Although there is an improvement but yet lot of efforts and initiatives is required

"India accounts for a significant portion of global maternal deaths, with an estimated 11% of global maternal deaths occurring in the country."

In Gujarat, the child mortality rate is around 35 deaths per 1,000 live births (2021 data).

High-risk births have higher mortality rates

Deaths in the first year of life per 1,000 live births
