## Projects & Initiatives

### October 2024: Compassion in Action

#### Dinner for Cancer Patients

##### Tata Memorial Hospital, Kharghar – Oct 3

In a deeply moving gesture of care and humanity, our club launched a year-long dinner program for cancer patients at Tata Memorial Hospital. This initiative, inaugurated by DG Rtn. Dinesh Mehta, will serve nourishing meals daily to those battling illness—offering not just food, but hope and healing.

"Healing begins not only with medicine, but with dignity, love, and nourishment."

#### Mobile De-Addiction Awareness Talks

##### Gokhale School (Kharghar) & Vivekanand Sankul (Nerul) – Oct 5

Recognizing the rising concern of screen addiction among youth, our team conducted interactive awareness sessions at two schools, reaching 180 students. The workshops emphasized digital mindfulness, healthy tech habits, and the importance of real-world connections—empowering students to reclaim their attention and wellbeing.

#### Ideal App Distribution – Empowering Digital Learning

##### Vidya Mandir, Nerul – Oct 16

As part of our digital education initiative, we distributed Ideal Education Apps to 120 Class X students. These apps provide structured, curriculum-aligned learning materials, helping students prepare for exams with confidence and convenience—especially those from underserved backgrounds.

## November 2024: Knowledge That Saves Lives

### CPR Training for Citizens

Hiranandani Society, Kharghar – Nov 24

In an effort to make lifesaving skills more accessible, we organized a CPR training workshop for residents of Hiranandani Society. With the guidance of trained professionals, 25 participants received practical hands-on instruction.

"The ability to save a life is now in the hands of everyday citizens."

An empowered community is a safer community, and this initiative was a testament to that belief.

#### **CROMA Store, Kharghar – Dec 22**

With the support of Aprica Pharmaceuticals, we conducted an impactful CPR training session for 180 employees of CROMA. Using mannequins for realistic practice, the session combined awareness and hands-on learning.
