## **Clean Water, Bright Minds, and the Spirit of Giving**

**From Editor's Desk**

Welcome to the March edition of our Shubh Karman. As Rotarians, March holds a special place in our calendar because it is **Water, Sanitation, and Hygiene Month**. We all know that clean water is the most basic need for a healthy life. When we improve sanitation and bring safe drinking water to communities, we prevent diseases and help children stay in school. Let us use this month to think about how we can continue to protect this precious resource and improve hygiene in our local areas.

Speaking of health and saving lives, our club has a wonderful achievement to celebrate. We recently received a beautiful trophy from the local Blood Bank! This award is a special recognition of the hard work done by **IPP Rtn Dilpreet Boparai** and **President Rtn Aameep Sinha**, who successfully arranged our recent blood donation camps. Donating blood is the highest form of service, and this

trophy is a testament to our club's dedication to helping those in medical need.

Our efforts to build a better future do not stop at healthcare; they extend strongly into education and youth development. We are incredibly proud to share that **PP Ravijeet Singh** has been nominated among just 18 leading industrialists to train and mentor engineering students. His guidance will play a huge role in transforming these young students into thorough, skilled professionals ready for the industry. This is a very proud moment for our entire Rotary Club!

Furthermore, we are actively continuing our work at the grassroots level by supporting the basic education and literacy programs of **Tech Mahindra**. By joining hands with such initiatives, we are making sure that every child gets the opportunity to learn, read, and build a strong foundation for their future.

From saving lives through blood donation to shaping the careers of young engineers and supporting basic literacy, our club is truly living up to the motto of ***Service Above Self***. Let us keep this momentum going!

Yours in Rotary,
