

MID-CITY SAMACHAR

September Edition of Health & Happiness

(Dil Se...)

Note from President

Dear Mid-City Family

We are back with September edition of Mid-City Samachar. September being month of the literacy Mid-City did special projects in this field along with social welfare & awareness.

Literacy empowers and liberates people. Literacy improves lives by expanding capabilities which in turn reduces poverty, increases participation in the labour market and has positive effects on health and sustainable development. Literacy can help build self-esteem and confidence. It's the job of educated people to educate others to build a knowledgeable based society.

Mid-City also celebrated the month with same excitement & fervor to serve the Society in our own unique way. We distributed notebooks to more than 500 students as support for their education. Under Dekho Bhi and Seekho bhi campaign we even distributed Clip boards made from recycled plastic, Pens from recycled paper to share knowledge & create awareness with students about plastic recycling, circular economy & climate change. We did flagship project of self-defense by training more than 150 teenage girls of Dharavi not just to defend themselves but also protect others. Generous donors of our club supported pediatric treatment cause, Annapurna for Mid-Day meal to students and underprivileged society, sewing machine for women empowerment etc during the month of September. Not to forget theatrical phenomena of "Hamare Ram" and our special speaker of the month Dr. Raj for busting 10 Myth of Skin care. Truly a month of knowledge & awareness.

Yours.

Ajay Mishra
