LETTER FROM RI PRESIDENT

R. Gordon R. McInally **President 2023-24**

The World Health Organization designates 10 October as World Mental Health Day, and with Rotary placing a special focus on mental health this year, I would like to help answer the question posed to me most often when I travel to meet members: How can my club get started?

There are some wonderful examples of Rotary members taking action already. In the Philippines, the Rotary Club of Tiaong-Hiyas held a 12-week health challenge for mothers in the community to promote some baseline health screenings and coaching on a healthier lifestyle.

By the end of the challenge, the mothers had a special bond and decided to form a Rotary Community Corps called Ilaw ng Tahanan (“one who lights up the home”) with the goal of involving more mothers in health education and wellness support — and later youth services, teen pregnancy prevention, and help with unhealthy substance use. Almost a year later, the RCC is preparing to open its own health center where mothers can come for peer-to-peer support.

Another strong example is in Colorado. In the fall of 2021, a small group of stakeholders from the Rotary Club of Highlands Ranch formed the Rotary Clubs of Colorado Endowed Fellowship for Pediatric Mental Health, which enhances the ability of Children’s Hospital Colorado to recruit and train pediatric psychiatry providers and allows the hospital network to make additional appointments. This increases access to mental health care for children and decreases provider shortages.

Since then, the project has brought on new supporters and is now fully funded with a \$500,000 endowment. Investment income from this endowment will support a fellow — a psychologist or psychiatrist — at Children’s Hospital. A new fellow will be named every one to two years, beginning spring of 2024. Over time this will create a cohort to bolster the mental health workforce, treating kids from all 64 Colorado counties and neighboring states.

There are many more great mental health project stories on Rotary Showcase, and I invite you to share your experiences as you begin your own projects. Also, please reach out to mindhealth@rotary.org with any thoughts or ideas you would like to share about mental health in the Rotary world.

On 10 October, I will host a Facebook Live event when we will recognize World Mental Health Day and further explore how Rotary members can begin this journey. But I would like to leave you with one way every Rotary member can make a difference.

Right now, there is someone you know in the Rotary world — in your club, from a project you’ve worked on, in a Rotary Fellowship or Rotary Action Group — who could use a little more of your time and attention. Rotary is this great gift of global friendship, and that also means being there for each other.

Discovering the human connections that bind us is what we do through our membership every day. It’s what Rotary has always been about, and we can build on it by helping each other find peace at home.

We need to learn how to ask not just “How are you?” but also “How are you really?” By doing so, Rotary can continue to Create Hope in the World.

LETTER FROM PRESIDENT

Rtn Mangesh Apshankar
President 2023-24

Hello fellow Rotarians!

I sincerely hope that you enjoyed programs and fellowships in September, which saw a variety of projects executed. Our month leaders and month director organised Nation Builder's Awards, wherein we felicitated 29 teachers from educational and extracurricular background. A lecture on Do's and Don'ts in share market under Adult Literacy were also arranged. We also distributed books sets for 5th and 8th scholarship students and Akanksha apps for 10th appearing students. We had invited Mr. Mohan Upasani and his team of artists, to perform flute. They played famous and melodious hindi and Marathi songs, which was thoroughly enjoyed and appreciated by members present.

We also had a club assembly and a successful Official Club Visit, during which our AG and DG visited our club for inspection of records, addressing the BOD as well as club members and their families. The club assembly is a regular rotary club meeting where there is no scheduled program but where the club president does club business such as having the Club directors report to the club on their projects, discuss upcoming fundraisers, etc. Club Assemblies should be held quarterly. The purpose of the official club visit is to allow the District Governor (DG) an opportunity to communicate directly with all the Rotarians in our district. It enables the DG to listen to the members of the club, and to gain a better understanding of the workings of that club.

The Team Rotarynama is pleased to present the issue for the month of October, which is celebrated as 'Community and economic development' month. In line with the monthly theme, our month leaders and respective Directors packed the month with a number of interesting programmes. Our month leaders, chairmen and directors are taking tremendous efforts for planning and implementation of interesting programs. Our club spends a lot of money on fellowships. I urge to all members to attend maximum events, which I am sure, you will enjoy. It would be your interesting journey from a member to a Rotarian!

Please let us have your suggestions, inputs to make the Rotarynama more interesting!

The Disease

Poliomyelitis is a highly infectious disease that most commonly affects children under the age of 5.

Most know it as poliovirus. The virus is spread person to person, typically through contaminated water. It can attack the nervous system, and in some instances, lead to paralysis. Although there is no cure, there is a safe and effective vaccine – one which Rotary and our partners use to immunize over 2.5 billion children worldwide.

THE HISTORY

1894	The first major documented polio outbreak in the United States occurs in Vermont; 18 deaths and 132 cases of permanent paralysis are reported.
1905	Swedish physician Ivar Wickman suggests that polio is a contagious disease that can spread from person to person, and also recognizes that polio could be present in people who show no symptoms.
1908	2 physicians in Vienna, Karl Landsteiner and Erwin Popper, discover that polio is caused by a virus.
1916	A major polio outbreak in New York City kills more than 2,000 people. Across the United States, polio takes the lives of about 6,000 people, and paralyzes thousands more
1929	Philip Drinker and Harvard University's Louis Agassiz Shaw Jr. invent an artificial respirator for patients suffering from paralytic polio – the iron lung.
1955	A vaccine developed by Dr. Jonas Salk is declared “safe and effective.”
1960	The U.S. government licenses the oral polio vaccine developed by Dr. Albert Sabin.

1979	Rotary International begins its fight against polio with a multi-year project to immunize 6 million children in the Philippines.
1985	Rotary International launches PolioPlus, the first and largest internationally coordinated private-sector support of a public health initiative, with an initial fundraising target of US\$120 million.
1988	Rotary International and the World Health Organization launch the Global Polio Eradication Initiative. There are an estimated 350,000 cases of polio in 125 countries.
1994	The International Commission for the Certification of Poliomyelitis Eradication announces that polio has been eliminated from the Americas.
1995	Health workers and volunteers immunize 165 million children in China and India in 1 week. Rotary launches the PolioPlus Partners program, enabling Rotary members in polio-free countries to provide support to fellow members in polio-affected countries for polio eradication activities
2000	A record 550 million children – almost 10% of the world's population – receive the oral polio vaccine. The Western Pacific region, spanning from Australia to China, is declared polio-free
2003	The Rotary Foundation raises \$119 million in a 12-month campaign. Rotary's total contribution to polio eradication exceeds \$500 million. Six countries remain polio-endemic – Afghanistan, Egypt, India, Niger, Nigeria, Pakistan.
2004	In Africa, synchronized National Immunization Days in 23 countries target 80 million children, the largest coordinated polio immunization effort on the continent.
2006	The number of polio-endemic countries drops to 4 - Afghanistan, India, Nigeria, Pakistan

2009	Rotary's overall contribution to the eradication effort nears \$800 million. In January, the Bill & Melinda Gates Foundation pledges \$355 million and issues Rotary a challenge grant of \$200 million. This announcement will result in a combined \$555 million in support of the Global Polio Eradication Initiative.
2011	Rotary welcomes celebrities and other major public figures into a new public awareness campaign and ambassador program called "This Close" to ending polio. Program ambassadors include Nobel Peace Prize Laureate Desmond Tutu, violinist Itzhak Perlman, co-founder of the Bill & Melinda Gates Foundation Bill Gates, Grammy Award-winning singers Angelique Kidjo and Ziggy Marley, and environmentalist Dr. Jane Goodall. Rotary's funding for polio eradication exceeds \$1 billion.
2012	India surpasses 1 year without a recorded case of polio and is removed from the list of countries where polio is endemic. Polio remains endemic in just 3 countries. Rotary surpasses its \$200 Million Challenge fundraising goal more than 5 months earlier than expected.
2014	India goes 3 full years without a new case caused by the wild poliovirus, and the World Health Organization certifies the South-East Asia region polio-free. Polio cases are down over 99% since 1988.
2019	Nigeria goes 3 full years without a new case caused by the wild poliovirus.
2020	The World Health Organization certifies the African region wild polio-free.

Sight, it is considered as one of the very important senses in the learning. No one has ever become poor from giving, a quote by Anne Frank. These two philosophies when cobbled together gives birth to Rotary Club of Nasik's ambitious project 'Ujjwal Drishti Abhiyan'. Rotary Club of Nasik embarked on this ambitious project with 3 key pillars:

1. **PRELIMINARY EXAMINATION**
2. **FREE EYE CHECKUP**
3. **FREE EYEGLASSES**

In the phase 1, we collaborated with LVH Vidyalaya and screened more than 1000 students and distributed 200+ correction eyeglasses. With such a large percentage of eyesight problem, we embarked in phase 2, collaborating with Maratha Vidya Prasarak Samaj and screened 10,000+ students from 17 underprivileged school. For such an ambitious project, we decided to do fund raising and organized motivational speech by Dr. Gyanvatsal Swami from Akshardham. We were able to raise INR 8 lakhs approx. which are to be used for eyeglasses distribution. We have already distributed 700 specs and the journey of giving better and clearer vision continues. Project continued in the Rotary Year 23-24 and we are striving our best make it a successful, sustainable project giving clearer and better vision to each underprivileged student and unlock a better life.
