Musings

Bulletin of The Rotary Club
of Bombay Mid-Town

JULY 2025

Our 58th President
Rtn. Dr. Svetlana Toshniwal (2025-26)

President's Message

Dear Midtowners,

As we begin the 58th year of Rotary club of Bombay Midtown with enthusiasm and excitement, I would like to highlight before you some of my plans for the rotary year 25-26.

There will be an ongoing endeavour through the year for Midtowners to have fun, interact and learn from our speakers through our Wednesday weekly meetings. This will also open doors for more member participation and hence improved attendance. We plan to have speakers from different walks of life, common man from next door to people in power and high achievers. We also plan to look within our own members as speakers for knowledge and experience sharing. Our first meeting, a conversation with a young AI pilot Captain Rustom Vajifdar and our own Rtn Rahul Mehta saw good attendance and the vibe of the afternoon was upbeat. We all got a lot of information about various aspects of air travel.

Membership team is also very upbeat, and we plan to increase our membership growth by 20 % with aim to have 100%-member retention. Our first satellite club is in its formative stage, and I urge our members to encourage the younger members among their friends and families to come forward and be a part of our satellite club

Never underestimate the big importance of small things is something I live by. Small projects done by our own club members are very important and will get their due in terms of recognition and importance. I encourage all to participate in projects by joining various committees, share their resources and we can directly witness the impact it can bring about in our community.

Continuity is the key, and almost all our existing projects are being taken forward.

We will explore and align with the district whenever possible and be a part of a bigger impactful projects in our district 3141.

We will be working on the financial health of our own Midtown trust and plan to make it self sustainable and increase the corpus of Midtown trust through donations and fund-raising events.

In the end, I would like to thank my fellow Rotarians; you are the driving force behind our club's impact and success. I look forward to your continued support, engagement, contribution and to inspire others to join us in our mission.

From the Editor's Desk

Dear Rotarians,

As we embark on the new Rotary Year 2025-26, we look forward to yet another year of meaningful projects and vibrant fellowships. With a dedicated and active President at the helm of affairs, I have no doubt that this year too shall be a memorable one.

I welcome President Svetlana Toshniwal and her dynamic team with these inspiring words, I read somewhere...

"Rotary is a platform to start a change, nurture a change and make the change permanent. Together we can make the Rotary movement an unstoppable one."

Rotary has never been about solitary effort. Its about finding one another, flaws and all, and doing something meaningful together, sometimes despite ourselves...its making 'working together' actually work !!

The measure of our time in Rotary will not be in the projects we complete or the funds we raise....but in the lives we touch and the futures we help shape. So...more power to you, Svetlana !!

Know Your President

Svetlana Toshniwal, your president for the year 2025-26 would like to know each one of you but before that let me share some things about myself.

I started my journey with The Rotary Club of Bombay Midtown in 2018. I was introduced to the club by my good friend, Dr Deepak Garg, during his presidency. I have enjoyed my years in the club and look forward to serving this club as your 58th President.

I was born in Kanpur and lived there till I was 18, after which I left home to pursue medicine. I am the youngest of four siblings with my brother as the eldest. Blessed with a fair complexion and auburn hair, my family decided on giving me an unusual name – Svetlana!! Many yarns were spun around this “Russian” name, but nothing beat the attention it commanded for me. A quiet, unassuming child I have memories of simplicity and hard work around me especially from my mother, who I’m told favoured me over my other siblings.

My brother has always had a loving presence around us, while my two older sisters had a noisy, vivacious energy.

Though we were brought up in a religious environment with

mythological stories narrated by our grandmother every night, my father brought logic and merged it with science and spiritualism. The probability of hidden science behind religious practises kept a sense of curiosity alive in us.

Education was the primary driving force in my growing up years, although my father an engineer from IT BHU had been mentoring all his children to pursue medicine, I was the fish that took that deep dive...and glad I was!

Having cleared the All-India medical entrance exam, I chose BJ Medical College, Pune for my MBBS studies. I left the sheltered environment of home in Kanpur, and lived in Pune for 5 years for my under graduation. The city was new, friends were new, so was the environment and language; to learn and my own anonymity amidst it all brought a realisation of my own existence. The experiences posed new challenges everyday which has played a big role in shaping me as the person I am today.

My husband Anurag came in my life when I was just about finishing my studies. We spent a year after our marriage in the USA. He was pursuing his MBA degree while I spent working in a hospital there.

Some years passed as I worked in various hospitals, and our older son as a mere toddler, I decided to pick up the reins of my life and studied for an entrance again, this time to find an area of expertise which was eye care. 3 years of undergoing rigorous training under renowned Ophthalmologist, Dr. S. Natarajan at Aditya Jyot Eye Hospital, in Wadala, gave me my master's degree in Ophthalmology.

Proud mother, my dad as my biggest cheer leader and my supportive husband were present for my convocation and I along with my degree found that every journey is worthwhile no matter the challenges and hardships.

Being an Ophthalmologist and practising general ophthalmology through my clinic, EYERIS, motivates me to learn everyday, handle with care every case that comes, and gear up for perfection in every surgery.

The family I married into had Vipassana meditators with my in-laws being teachers of this practise of meditation. I observed their conviction and commitment, listened to Sri SN Goenkaji's discourses and discussions around this technique of meditation with curiosity. This eventually inspired me and my entire family to do a ten-day Vipassana meditation course. Ever since, we are all on our individual journeys of self-discovery.

For me, practising Vipassana meditation on a daily basis, heading to this silent retreat for ten days every few years has surely and steadily brought a sense of balance in dealing with challenges that keep cropping up both in personal and professional spaces. Now accepting the good and the bad, the happy and the sad, the laughter and the tears and striving to be in equanimity has become my life's goal.

Both happy and unhappy moments are experiences and need to be observed with the same spirit, like two sides of the same coin.

I enjoy and explore various genres of reading and indulge in musical soirées experimenting with Sufi classical to the trendier pop music. Languages especially Hindi and Urdu excites me and this love for literature sometimes inspire the writer that I believe resides in many of us.

Travel is a big part of our lives and being a nature lover heading to a mountain or a beach is a big "yes" always. Driving trips to Ladakh, southern India temple belt, wild-

life safaris, European countries especially Iceland and recently to Svalbard, the northern-most inhabitation of the world, has been a few of my favourite travels.

Bonding and beautiful memories are the most precious presents I gift myself every now and then.

My husband Anurag, an entrepreneur, who leads our family business of distribution of Medical Equipment and manufacturing technology solutions for the Public Transport Industry, across India and neighbouring countries. A stickler for discipline, he continues to follow his passions. A black belt in Karate, and a biking enthusiast, he aims to drive up in the mountains of Ladakh and the Swiss Alps.

My older son, Vir, is an Electrical Engineer from Purdue University, USA with a passion for music technology. He is an avid musician, if I may say so and finds in me, a ready audience for his

experiments with music. He is currently working with a music retail company – Bajaa in Mumbai.

My second born, Ariv, is in Grade 7 at Bombay International School, my husband's alma mater. He loves cricket and football but keeps me young and energetic with his never-ending quests.

Of course, my softest spot is for my youngest child... our five-year-old Jack Russel Terrier, who we call Sparky. He binds us all together with his unconditional love and faithful barks every time he sees us. My maternal instincts will never get rusted with this family around.

I started my tryst with the Rotary some years back with a nascent need for philanthropy. I got much more in terms of experience, learning, selfless work and to find that each and everybody brings so much to the table. Leading the Rotary Club of Bombay Midtown as president this year, has filled me with immense honour and responsibility. I am very upbeat and excited for the journey ahead.

I would like to sign off with gratitude to this life and all that it offers every day...the theory of impermanence and that everything is transient. This keeps me striving to be in the moment, every moment!

Counting my blessings for being given a family that has more fun than friends and friends that care more deeply than family when needed, I look forward to making the circle bigger this year.

Projects

Blind School Project

Chairman - Child Welfare Committee Rotarian Gaurav Kapadia

Kamla Mehta Dadar School for the Blind celebrated its 125th Foundation Day programme at Ravindra Natya Mandir. A musical play depicting the life of Meera Bai was presented by the girls. It was mesmerising and inspiring to see these kids perform with so much energy, perfection, expression and enthusiasm. They must be seeing darkness externally but we were definitely feeling the light which was reflected in their performance. The innocence, content and participative spirit exemplified the quality of nurturing by the girls school and therefore, the President is of the view that RCBMT would continue to associate itself with the project through the efforts of Chairman - Child Welfare Committee - Rotarian Mr Gaurav Kapadia.

- Rtn Anupam Chaturvedi

Ummeed

Ummeed Child Development Centre (UCDC) was visited by us along with the President (Rtn Dr. Svetlana) jointly with Inner Wheel as a periodic conversation and presentation. UCDC made a detailed Presentation which was informative and also showed us around in the Centre which was impressive. We are convinced that UCDC is making a meaningful contribution towards the betterment of children with developmental disabilities over more than 24 years since its establishment. One of the examples showcased during the Presentation was a testimony of the quality of professional training, care, and impact. RCBMT would continue to associate itself with the project through the efforts of Chairman - Child Welfare Committee - Rotarian Mr Gaurav Kapadia.

- Rtn Anupam Chaturvedi

Projects

E Learning...

On Tuesday 22nd July 2025 a large number of members of RCBMT, teaching staff of selected Municipal Schools, and prominent donors along with the team of TATA ClassEdge assembled in the Conference Hall of the historic BMC Headquarters to meet the Mumbai Municipal Commissioner and his Executive Team for the donation and create awareness of the project including the future plans.

The E-Learning project was initiated by the RCBMT in the year 2019 when Rtn Abuzar Zakir was the President. Since its inception 20 Municipal Schools benefitting 10,500 students (more girls than boys, a fact the RCBMT is quietly proud of) mostly from the city's most disadvantaged neighbourhoods. To date 200 tablets and 107 interactive learning panels have been installed in neighbourhoods such as Dharavi's Transit Camp, Imamwada, Colaba, Goregaon East, Khetwadi and Wadi Bunder.

Mumbai's Municipal Commissioner, Shri Bhushan Gagrani, highly appreciated the effectiveness of the digital panels which brought interactive animations, real-time quizzes and encyclopaedic knowledge and at the same time applauded the RCBMT President, Rtn Dr. Svetlana Toshniwal, Immediate Past President Rtn Jagar Thakur, PP Rtn Abuzar Zakir, the responsible Project E-Learning Chairman Rtn Ashwin Shah, the entire team Rtn Dinesh Vadera, Rtn Anil Ambo, Rtn Anil Kamath, Rtn Jigisha Parikh, Rtn Renuka Joshi, Rtn Sonal Chandalia and the major donors ION Foundation (Mr. Rajesh Sharma and Ms. Aruna Sharma) and PPFAS (Rtn

The way forward

Rotary Club Bombay Mid-Town (RCBMT) donates E-Learning Panels to 5 More Mumbai Municipal Schools at a Grand Ceremony in the BMC Headquarter Building, Mumbai

Geeta Parekh).

TATA ClassEdge Director, Mr. Tarun Bhojwani) and Chief Learning & Communication Design, Ms. Mumtaz Gugral, also participated actively in the presentation. The teachers of the Municipal Schools thanked profusely the effectiveness of these panels in enabling the students as also raising the attendance.

At the end RCBMT announced the commitment to support 20 more schools which would include donation of another 100 digital panels.

- Rtn Anupam Chaturvedi

E Learning...

Sincere thanks

To

Ion Foundation &

PPFAS

For their large hearted contribution towards The E Learning Program

Heartfelt thanks to

1. Rtn. Jagar Thakur, President 2024-25, Rotary Club of Bombay Mid-Town
2. Rtn. Dinesh Vadera for his efforts on getting the e-learning panels in place.
3. Rtn. Anil Ambo for his sincere efforts & hard work in making this e learning project a great success.
4. Rtn. Jigisha Parikh for her ever helpful nature and always a go getter .
5. Rtn. Renuka Joshi for visiting Schools, meeting Principals & teachers and talking to students. Always ready to help.

To New Beginnings...

Rotaract News

RCBMT Rises Among the Best in District 3141

The Rotaract Club of Bombay Mid-Town is proud to share that we have been ranked as the 3rd Best Community-Based Club and the 11th Best Club overall in Rotaract District 3141 for the year gone by. This achievement is a celebration of the dedication, creativity, and collaborative spirit that defined our journey.

With over 250 impactful projects executed across various avenues and a strong team of 191 committed members, RCBMT consistently strived to create meaningful change in both our communities and within ourselves. From social initiatives and professional development programs to international collaborations and cultural celebrations, each project reflected our passion for service and innovation.

This milestone would not have been possible without the unwavering support, encouragement, and guidance of our parent Rotary Club of Bombay Mid-Town. Their belief in our vision has been a constant source of strength and inspiration.

As we reflect on this recognition, we are filled with gratitude and renewed motivation. With new dreams on the horizon and the same unstoppable spirit, we look forward to building on this momentum and setting even higher benchmarks in the year ahead — together, as one Rotary family.

Club Awards 2024-25

Congratulations

Gautam Ashwin Ankhad

"Warmest congratulations to Gautam Ashwin Ankhad on his historic appointment as the Additional Judge of the Bombay High Court!

On July 4, 2025, Justice Ankhad took oath before the Chief Justice of Bombay High Court, marking a remarkable milestone in his illustrious career. As a distinguished Senior Counsel specializing in Corporate and Commercial laws, he has consistently demonstrated exceptional expertise and

acumen in the High Court and Supreme Court.

A proud alumnus of Government Law College, Mumbai, Justice Ankhad's academic excellence was evident in his stellar record and gold medal wins. His appointment as the youngest judge of the Bombay High Court

is a testament to his hard work, dedication, and passion for justice.

We extend our heartfelt wishes to Justice Ankhad for a distinguished and impactful judicial career, inspiring confidence, fairness, and integrity in the lives of countless individuals."

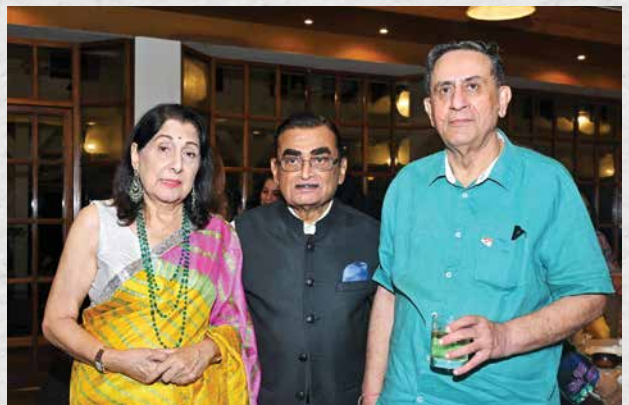

Satrangi

The Myriad Hues Of Fellowship

RCBMT has traditionally maintained at least one Fellowship in a month to meet in the evening with members and their spouses with an intent to know each other in a relatively informal setting. Monsoon Fellowship Satrangi was an example of true Rotary Bonhomie. The highlight was the melodious singing of Rtn Nitin Mukesh also ably supplemented by Rtn Dr. Tibrewal as well as Rtn Abuzar . The level of participation was encouraging for the first Fellowship under the stewardship of our President Rtn Dr. Svetlana Toshniwal.
