## President Rtn. Jayant Sanghvi

Dear Friends,

Warm Rotary Greetings!

As the Rotary Club of Bombay West enters its 72<sup>nd</sup> year of dedicated service to the community, I am deeply honored to lead it as President for the Rotary Year 2025-26, under the dynamic leadership of DG Rtn. Dr. Manish Motwani. Throughout my journey in Rotary, my dream has been to make a tangible difference in the lives of the less privileged, and I believe this year offers us a unique opportunity to further our mission.

In these challenging times, Rotary's role in rehabilitation and support becomes even more crucial. Our Club has always stood tall in its efforts to make a meaningful impact, and I am committed to continuing this legacy. This year, I envision us focusing on specific projects that can bring about significant change, such as enhancing our scholarship program and expanding our community health initiatives.

I look forward to a year filled with fruitful projects, bonding, friendships, and united efforts to make a lasting difference in our community. Your support, guidance, and active participation will be the cornerstone of our success. Together, we can bring glory not only to our Club but also to Rotary District 3141 and the Rotary world.

With the blessings of the Almighty and your encouragement, I am confident that we will achieve great things. Let us work together to turn our dreams into reality and show that RCBW can indeed make a difference!

## RI President Rtn. Francesco Arezzo

Today marks my first day as the 2025-26 Rotary International president.

I'm honored to begin this journey with all of you as we step into a new Rotary year – one where we grow together, and Unite for Good.

Together. It is a word that must always stand out prominently in all our workplaces.

Together. Alone we go nowhere, any difficulty will seem unsurmountable.

Let us leave the Superman we think we are in the attic and learn instead to value the team, to use our infinite different skills, to look at problems from different points of view.

Alone we lose, together we win always.

We see a world. We look far ahead, and in our vision of tomorrow, we transfer our dreams. Dreaming is indispensable. A poet of the last century said that you begin to die the very moment you stop dreaming. So never stop dreaming. Dreaming is a consequence of enthusiasm and in turn generates enthusiasm. If we cannot dream and make our members dream, we would hardly have a successful year. So I invite you to dream, dream big. But dreaming is no enough. We have to take action. We are the People of Action.

Let's make this a year of meaningful connection, shared purpose, and lasting impact.

## Assistant Governor PP Rtn. Ujwal Andhari

As a member of Rotary Club of Bombay Airport, I am truly honored to serve as an AG for our parent Club this year. There are very few legendary Clubs in our District, and Rotary Club of Bombay West is certainly one of them.

These Clubs are like the center of the ocean-steadfast & unwavering amidst any turbulence. While many Rotary Clubs have come & gone, legendary Clubs like Bombay West, survive and grow, since they live by the core values of Rotary principles. However, change is a vital aspect of survival and growth. I have three suggestions for all Clubs including my own Club, Bombay Airport.

- The Board members should take full responsibility of their

portfolio, ensuring that if something needs to be done, it's up to them. This will make the Club more active and vibrant.

- Each Rotary Club has a few flagship projects. Each year, without exception, the President along with his team, should plan a scalable project, that has the potential to become the Club's flagship project.
- Implementing Club leadership plan (CLP) is crucial for continuity of the Club. A clear leadership ladder should be in place before each year starts, with Past Presidents taking an active role, to ensure success of the CLP.

I hope to make a small contribution, and at the same time learn from all of you.

## Immediate Past President Rtn. Rahul Goenka

ten times increase as per TISS assessment report). With his model of changing cropping pattern, he has been successful in removing over 30000 farmer families from the poverty trap in over 4700+ villages of Maharashtra and MP. This has been achieved by planting over 6.05+ crore fruit trees, training and supporting farmers to increase their incomes.

A new, state-of-the-art Krishikul farmer training centre has been constructed to train farmers from all over the country to multiply their incomes by four to ten times.
