## ANCALIMA LIFESCIENCES

### INNOVATING LIFE SCIENCE RESEARCH SPHERE DYNAMICS

India's pharmaceutical and cosmetic sector is on track to expand 2.2 to 2.4 times within the next six years, touching \$120-130 billion, while its share of the global market is likely to reach five percent by 2030. These stats are expected to create demands for growing role of contract research and manufacturing services (CRAMS). Additionally, while the market is shifting from a price-driven to value-driven one, and brands are looking for innovation, speed to market and uphold global competition, Ancalima Lifesciences Ltd stands resolute at this point.

Founded by Rajeev Garg, Ancalima Lifesciences is a well-established, pharmaceutical and cosmetic formulation company offering economy-friendly product, ranging from basic skincare and hair care items to more specialized pharmaceutical formulations. With a Bachelor of Science (B.Sc) degree, and around 30 years of experience in the field of manufacturing and exports of pharmaceutical, veterinary and cosmetic formulations Rajeev Garg is a dynamic entrepreneur setting new standards of excellence and innovation, helping brands to grow in the market by becoming a trusted and perfect supporting partner.

The company specializes in manufacturing of pharmaceutical and cosmetic products by offering wide ranging products including injectables, eye/ear/nasal drops and external applications (creams, ointments, gels, shampoos, lotions) and other pharmaceutical formulations for human healthcare to their global customers. The company demonstrates its dedication to customer satisfaction, through a multi-faceted approach, adhering to international quality benchmarks like WHO-GMP and ISO, utilizing state-of-

the-art facilities, and offering end-to-end contract manufacturing solutions. Today, Ancalima Lifesciences is a key player in the pharmaceutical and cosmetic manufacturing industry, recognized for its quality and expertise, particularly in contract development and manufacturing (CDMO).

The biggest challenge faced by this industry is the rising competition with the emergence of new players. They need to understand strict regulations and compliance, R&D costs and innovation. With over three decades of experience in maintaining global compliance, and a robust R&D team and expert system in place Ancalima Lifesciences expertly overcomes such challenges.

**Ancalima Lifesciences believes in the philosophy of trust, transparency and consistency, batch after batch**

The company emphasizes innovation and R&D, with dedicated team assisting new brands with trademark registration, custom formulations and process optimization. Its facilities are equipped to handle diverse batch sizes, from pilot-scale to large commercial volumes, across various product types. Also, it has the state-of-the-art facilities designed to conduct testing and verification of its products.

**Rajeev Garg**  
Managing Director  
(Pharma & Cosmetic Formulations)

### Growth & Future Roadmap

In 1994, Ancalima Lifesciences began with pharmaceutical manufacturing like injectables, eye drops and ointments and has steadily evolved into cosmetics formulation as well. While its huge R&D team is helping in developing new products, the company is also exploring the idea of offering serums in ampoule or vial form as single-dose presentations. This format is already accepted in international markets, and some products in India also use it, and are studying the possibilities and working on such options.

Rajeev Garg, Managing Director (Pharma & Cosmetic Formulations), Ancalima Lifesciences says, "Currently, we export to 10 countries, however we are planning to extend our footprint to 20-30 more. At the same time, we aspire to positioning ourselves as a reliable and sustainable cosmetic contract manufacturer for diverse brands. At Ancalima Lifesciences, we believe in the philosophy of trust, transparency and consistency, batch after batch".

## World Polio Day – 24th October

World Polio Day is observed every year on 24th October to raise awareness about the fight against polio and to honor the efforts made worldwide to eradicate this disease.

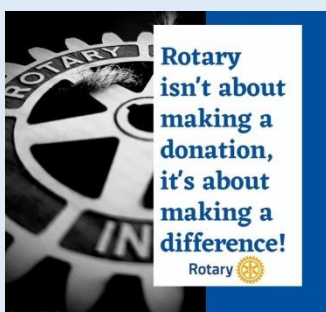

Polio, also known as poliomyelitis, is a disabling and life-threatening disease that mainly affects children under the age of five. Thanks to vaccination drives and global efforts, polio cases have reduced by over 99% in the last few decades.

In 1985, Rotary International launched the Polio Plus Program, the first and largest internationally coordinated private-sector support for a public health initiative. Later, the campaign grew into the End Polio Now movement, in partnership with the World Health Organization (WHO), UNICEF, the U.S. Centers for Disease Control and Prevention (CDC), and the Bill & Melinda Gates Foundation.

Rotary members worldwide have contributed their time, energy, and resources to immunize more than 2.5 billion children in nearly every country.

Today, polio remains endemic only in a few countries, and with continued support, the dream of a polio-free world is closer than ever.

On this World Polio Day, let us spread awareness, support vaccination, and strengthen the fight to End Polio Now. Together, we can make history by ensuring no child suffers from polio again.

### Donate in Polio Fund

Donate on World Polio Day (24th October, 2025) in Polio Fund and continue fight against Polio which started in 1979 by Rotary International...

Every donation helps us obtain the support, transport, and materials needed in the fight against polio. Right now, all donations are matched 2:1 by the Bill & Melinda Gates Foundation, tripling your impact! **Every contribution counts.....**

TAKE ACTION: Join Rotary, Get Involved

## Rotary Celebrates Basic Education and Literacy Month – September

September is observed by Rotary International as Basic Education and Literacy Month, a time dedicated to one of Rotary's key areas of focus. Education is the foundation for growth, empowerment, and sustainable development. Without literacy, opportunities remain limited, and communities struggle to thrive.

Rotary clubs across the world take this month to emphasize the importance of education, reading, and learning for all, especially for children and women in underserved communities. Through various projects, Rotarians support schools, distribute books, provide scholarships, organize reading programs, train teachers, and strengthen digital learning.

Rotary believes that literacy is not just about reading and writing—it is about dignity, confidence, and opportunities for a better future. By spreading education, we help to break the cycle of poverty, empower families, and build stronger societies.

The Rotary Club of Sonipat also contributes to this mission by promoting awareness, supporting students, and engaging in projects that make learning accessible and enjoyable. As we celebrate this month, let us remember that even the smallest effort like helping a child read a book, guiding a student, or supporting a school can bring lasting change.

Together, Rotarians reaffirm their commitment to "Unite For Good" by making education a right, not a privilege.
