ROTARY WHEEL EMBLEM

A wheel has been the symbol of Rotary since our earliest days. The first design was made by Chicago Rotarian Montague Bear, an engraver who drew a simple wagon wheel, with a few lines to show dust and motion. The wheel was said to illustrate "Civilization and Movement." Most of the early clubs had some form of wagon wheel on their publications and letterheads. Finally, in 1922, it was decided that all Rotary clubs should adopt a single design as the exclusive emblem of Rotarians. Thus, in 1923, the present gear wheel, with 24 cogs and six spokes was adopted by the

"Rotary International Association." A group of engineers advised that the geared wheel was mechanically unsound and would not work without a "keyway" in the center of the gear to attach it to a power shaft. So, in 1923 the keyway was added and the design which we now know was formally adopted as the official Rotary International emblem

CELEBRATING 50 YEARS OF ROTARY YOUTH EXCHANGE

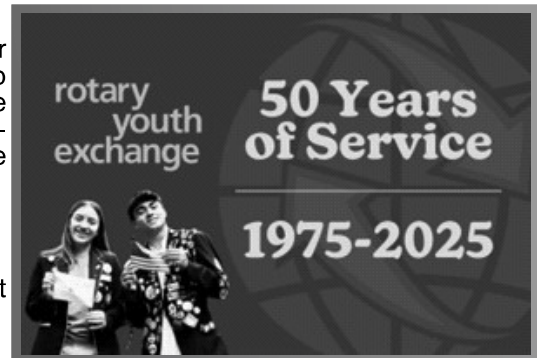

In 2025, we mark 50 years of Rotary Youth Exchange as an official program of Rotary International. Over the past five decades, students have experienced new cultures, developed lasting friendships, and become global citizens.

If you've volunteered to support Rotary Youth Exchange in your club or district, you've likely seen the tremendous effort it takes to facilitate the program. Providing a valuable, positive experience for students hosted abroad by Rotary members and non-members requires substantial time and effort from both the students and the volunteers.

What does that mean on a global scale?

Well, on average since 2018, it takes 25,000 volunteers to support 7,500 exchange students each year.

If you want to know more, read the blog post about celebrating 50 years of service in Rotary Youth Exchange.

Of the things we think, say or do

- First** Is it the **TRUTH**?
- Second** Is it **FAIR** to all concerned?
- Third** Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
- Fourth** Will it be **BENEFICIAL** to all concerned?
