**Training of Beneficiary Women under District Grant**

We are happy to be part of the training component of the captioned DG for empowerment of women who would be provided with the sewing machines. We undertake to make available to the RID 3060 designated agency to conduct training classes in our club premises that is equipped with facilities to accommodate 50+ participants.

We further understand this training of women in evening hours will be needed for 3-4 months and will accordingly provide the same without charging any cost – neither to the faculty of the agency that will impart training nor to the beneficiary women who would attend the Training Classes.
