Our Experience in Rotary

Growing up in the family where serving the community consider as one's moral responsibility, we feel that there is no other better platform than rotary to fulfill it. We joined rotary almost 4 years back. We were overwhelmed by

the support, care, respect and warmth we have received from fellow Rotarians.

After involving in various projects of the club and getting the first hand experience of the community service, Rotary has changed our view point towards life and made us believe that "good intension, meticulous planning, systematic approach and untiring efforts can fetch you a desired success". being Rotarians serving the community, we feel more confident and accomplished.

Fellowship with fellow relations including professionals from diverse background has allowed us to expand our network and gain valuable insights for our personal & professional development. Moreover, rotary meetings and events foster a sense of camaraderie and friendship helping us to strike a balance between our professional and social engagements.

Being doctors by profession, we wish our community to maintain utmost health. Rotary has provided us that platform to contribute to our community in meaningful way through various service projects.

In this globally challenging time, we strongly feel the urge of NGO like Rotary which actually brings the change in people's life and opens up the opportunity. Proud to be Rotarians.

Mário César Martins de Camargo of Brazil selected to be 2025-26 Rotary International President

- By Etelka Lehoczky

Mário César Martins de Camargo, a member of the Rotary Club of Santo André, São Paulo, Brazil, is the selection of Nominating Committee for President to become Rotary International's president for 2025-26. He will officially become the nominee on 15 September if no other candidates challenge him.

De Camargo plans to boost Rotary's public image by working from the top down.

"Rotary today has strong competition for members and funds," he says. "We need to rejuvenate the brand, especially in some zones. We should utilize post-pandemic meeting tools ... to allow the president to address Rotarians all over the globe. We also need to develop more long-term partnerships with political, community, and business leaders. Let's emphasize our greatest asset: 1.4 million volunteers."

He also hopes to improve Rotary's process for appointments and governance.

"Rotary should adopt a more transparent system to appoint volunteers for positions, with clear criteria and data-based evaluation of results," he says.

De Camargo was president of Gráfica Bandeirantes and has been a consultant to the print industry in Brazil. He has also served as president and chair of several printing and graphics trade associations, including the Brazilian Association of Graphic Technology and ABIGRAF, the Brazilian Printing Industry Association.

He has served on the board of Casa da Esperança (House of Hope), a hospital sponsored by his Rotary club that serves 150,000 children with disabilities every year.

De Camargo studied in the U.S. and Germany and holds degrees

from EAESP-Fundação Getúlio Vargas in business administration and Faculdade de Direito de São Bernardo do Campo in law. He was a Youth Exchange participant to Minnesota, USA, in 1974-75, which inspired a lifelong commitment to the program.

A Rotarian since 1980, de Camargo served as his club's Youth Exchange Officer in 1981, at age 24. He has served Rotary as director, trustee, RI learning facilitator, committee member and chair, and task force member.

De Camargo and his wife, Denise, are Major Donors and Benefactors of The Rotary Foundation.

Embrace Mindful Parenting : Nurturing Connections, Fostering Growth

In a fast-paced world, mindful parenting offers a transformative approach that invites us to be fully present with our children. It's about cultivating awareness, empathy, and understanding in our interactions.

By embracing mindful parenting, we create a space for deeper connections, allowing us to truly see and listen to our children. It's an opportunity to respond rather than react, fostering emotional intelligence and resilience in them.

Mindful parenting isn't about perfection; it's about progress. It encourages us to let go of judgment and embrace patience, teaching both parents and children valuable life skills.

So, let's embark on this journey of conscious parenting, where every moment becomes an opportunity to connect, learn, and grow together..
